

# GRENADE

BY L'EPÉE 1839

## Inspiration

Grenade is a mechanical masterpiece combining clockmaking excellence with a call to pull the pin and live for now !

The Grenade is reinvented into a unique piece of art, symbolizing the unpredictability of life.

L'Épée 1839 sets you free with the horologically volatile Grenade. An innovative timepiece inspired by various art forms, Grenade is a compact desk and mantel clock challenging the hold that time has on our lives as we are often consumed by the pressing need to fill our schedules with never-ending tasks overwhelming our days.

The Grenade clock releases your mind from the grind of modern life.
